

Rut N Ready

- Early fall planted annuals offer early/late fall food source
- For light to heavy soil types in light shade to full sun
- Brassicas remain green until air temps reach 10 to 15° F
- Optimally planted 6 to 8 weeks prior to killing frost, sugars flush vegetative growth after frost for appealing food source
- Brassicas attract deer early fall & after killing frost

Rut N Ready is a fall seeded mix containing unique brassicas. Planting this plot offers deer a food source from late fall into early winter. After a hard frost, sugars will flush the vegetative growth and deer will dig through snow to feed on these leafy greens. Plant this plot 6 to 8 weeks out from killing frost.

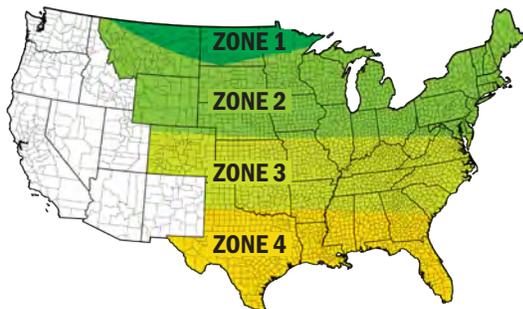

LIFE CYCLE:	SEEDING RATE (LBS/ACRE):	BAG SIZE (LBS):
ANNUAL	8	8 & 4

- 30% Tillage Radish®
- 20% Rapeseed
- 20% Purple Top Turnips
- 10% Forage Kale
- 10% Vivant Brassica
