

FORAGE FIRST®

Grass Master Pasture Mix

- Ryegrasses provide early forage production
- Good choice for grazing, green chop or hay production
- Endophyte-free tall fescue & orchardgrass perform well in less than ideal summer conditions

Grass Master Pasture Mix is formulated to maximize production during the entire growing season. As with most grass mixes, Grass Master will perform best with adequate rainfall or irrigation.

- **Includes CrosseCoat™** - an elite platform of proven seed coating and treatments to enhance germination, establishment and survival

FORAGE FIRST® FACTOR: We provide a diverse set of mixes to produce high quality forage for your unique operation. Our versatile pasture mix portfolio offers a variety of proven products to fit any need, created with flexibility and ease of management in mind.

All Forage First® pasture mixes contain top performing forage varieties for improved yield, higher nutritional value, increased stand life and grazing tolerance, excellent regrowth and more.
