

FORAGE FIRST®

Mare & Foal Mix

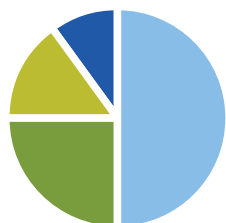

- **Contains no tall fescue**
- **Ability to be productive under rotational grazing**
- **High quality hay production**
- **Tolerance to heavy traffic**
- **Excellent regrowth**

Mare and Foal Mix is a high quality forage that promotes the proper functioning of the equine digestive system. The combination of grasses is highly palatable to encourage greater consumption.

- **Includes CrosseCoat™** - an elite platform of proven seed coating and treatments to enhance germination, establishment and survival

FORAGE FIRST® FACTOR: We provide a diverse set of mixes to produce high quality forage for your unique operation. Our versatile mix portfolio offers a variety of proven products to fit any need, created with flexibility and ease of management in mind.

All Forage First® mixes contain top performing forage varieties for improved yield, higher nutritional value, increased stand life and grazing tolerance, excellent regrowth and more.
