

# FF Pro

## Brand Alfalfa

Cutting System: 2 - 4

- Consistent performance at a budget price
- Widely adapted

Pro Brand is a selected brand of alfalfas specifically chosen for local adaptation and is designed for sustainable management programs. Pro Brand is a good alfalfa for the economy-minded grower.

Includes **CrosseCoat™**, an elite platform of proven seed coating and treatments to enhance germination, establishment and survival.

# FF Premium

## Brand Alfalfa

Cutting System: 3 - 4

- Solid performance at a modest price
- Improved disease resistance
- Widely adapted

Premium Brand is a carefully selected brand of premium proprietary alfalfas chosen specifically for adaptation in the area in which it will be grown. Premium Brand is a perfect choice for growers seeking a moderately priced variety.

Includes **CrosseCoat™**, an elite platform of proven seed coating and treatments to enhance germination, establishment and survival.

### FORAGE FIRST® FACTOR

Understand that harvest schedules play a huge role in alfalfa selection. Be practical when considering cutting intervals and regrowth expectations. If the fall dormancy doesn't match the management of the producer, it doesn't matter the genetics or quality of the alfalfa.

#### Resistance Ratings:

HR = Highly Resistant, 51% or more resistant plants  
LR = Low Resistance, 6 - 14% resistant plants

R = Resistant, 31 - 50% resistant plants  
S = Susceptible, 0 - 5% resistant plants

MR = Moderately Resistant, 15 - 30% resistant plants  
NR = Not Rated
