Nitrous is our new winter triticale variety, showing increased winter hardiness over Hy Octane. Nitrous delivers outstanding forage yield with a greater leaf:stem ratio. Nitrous makes a great option for fall or winter grazing, extending the season beyond that of brassicas and cool season grasses.

CHARACTERISTICS:

Non-Forage Benefits:

1 = Poor; 5 = Excellent

Compaction Alleviation: 2

Weed Suppression: 4

Biomass Production: 5

Erosion Control: 4

Disease/Pest Control: 3

Pollinator/Beneficials: 1

D & K Cycling: 4
